

The Statue of Liberty Enlightening the World Light Station in 1886 shortly after completion. U. S. Lighthouse Society photo.

*A tower of truth there comes
Beaming 'cross yonder bay
Twilit, she was, on the cusp
Now she signals the safest way...*

*Our hopes – our passions
Our terrible anguish
Cast now aside as we pass
The Lighthouse of Liberty...
We've come home at last.*

—By Al Crane
